All Aboard

Creating a community of green changemakers during childhood

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

The project

All Aboard: Creating a community of green changemakers during childhood is a 2-year project fostering synergies in 4 countries (Sweden, Portugal, Greece, Turkey) aiming to develop an innovative approach to shift the focus from raising awareness to taking action in the environment and **fighting against climate change** with teachers and children from primary education level.

Promoting an **innovative** and **holistic student-centered approach** to primary education, All Aboard empowers children as creative leaders, concerned with the sustainability of their planet.

Our objectives

To develop

- 1 an innovative approach to shift the focus from raising awareness to taking action in the fight against climate change

To equip

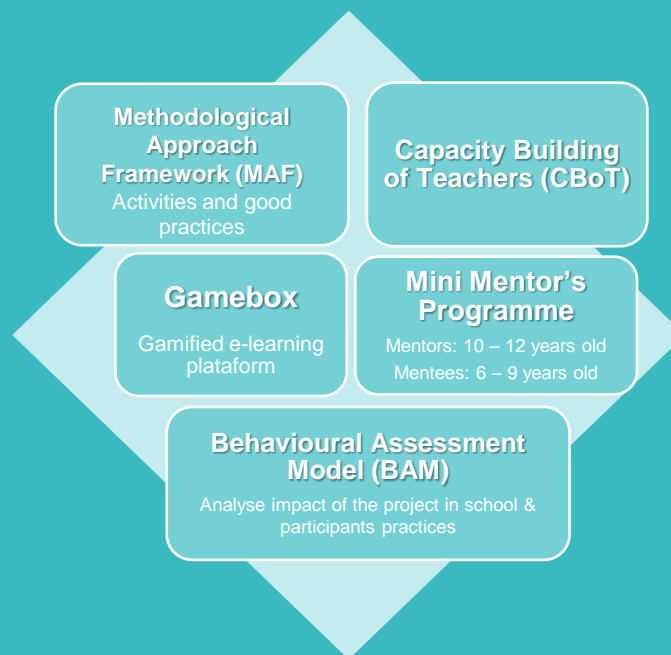

- 2 teachers with the knowledge, skills and attitudes needed to achieve environmental sustainability and empower children at an early age to address real problems

To design, develop, test and implement

- 3 practices to foster children's citizenship participation through a sustainable perspective

To make schools

- 4 the hubs of education and leadership on the Sustainable Development Goals.

Target groups

Direct target group

Primary and lower secondary teachers

Indirect target groups

School staff and children families/parents

Local community
